information on Army Career Tracker

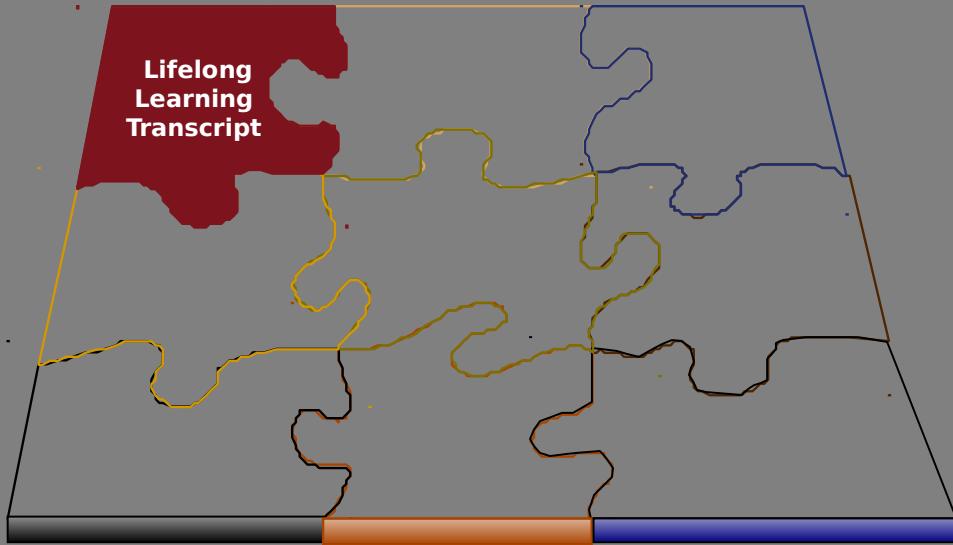

## Soldier's Role

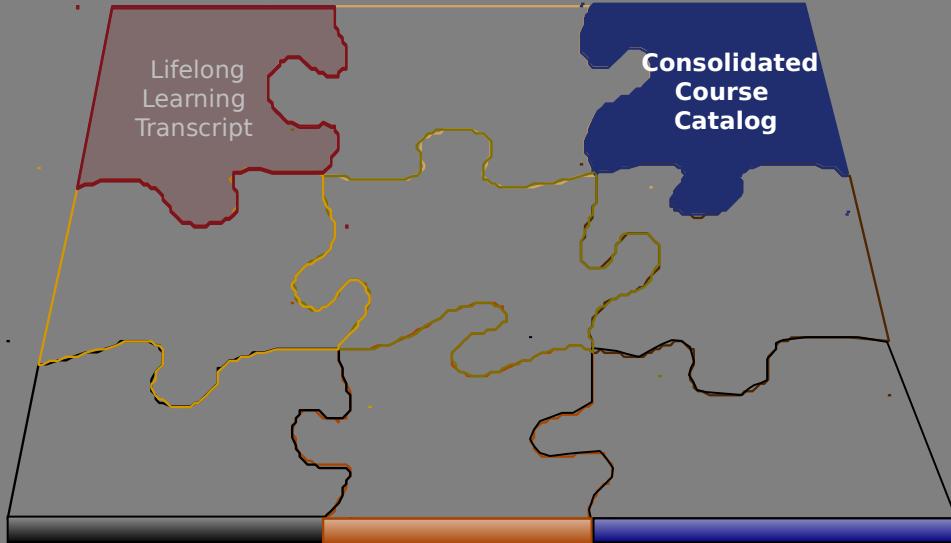

## Soldier's Role

The Lifelong Learning Transcript will provide a personalized consolidated history of all recorded education, training (institutional and unit training) and assignments in a simple to use interface. It will include information on Army Continuing Education System, retirement, college credits and military, civilian, and professional credentials earned. It will have the ability to request official transcripts from the system of record.

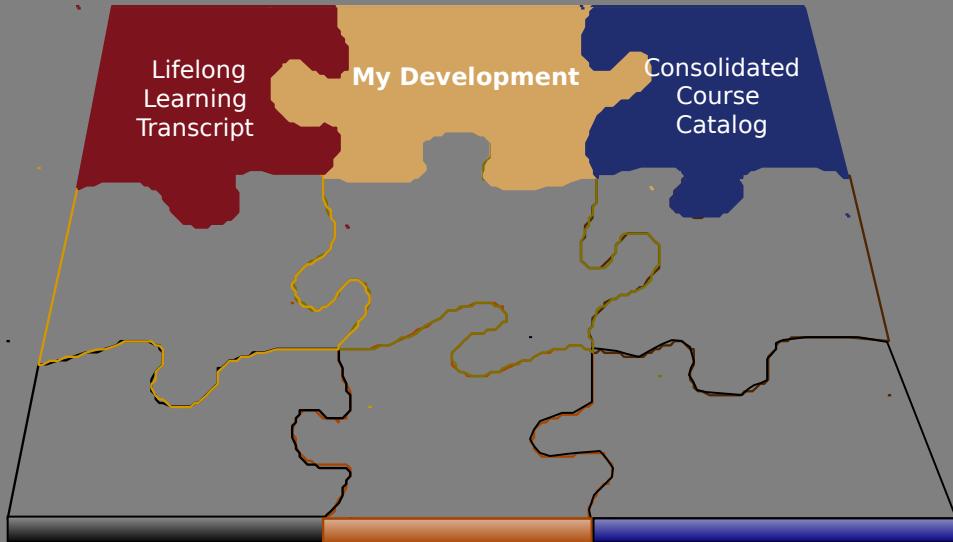

## Soldier's Role

The Consolidated Course Catalog will provide a consolidated list of available college courses and training from various education and training sources each within a simple to use interface. It will have the ability to view detailed course descriptions with deep linking for course enrollment and registration. Course information will include seat availability, eligibility, and associated costs.

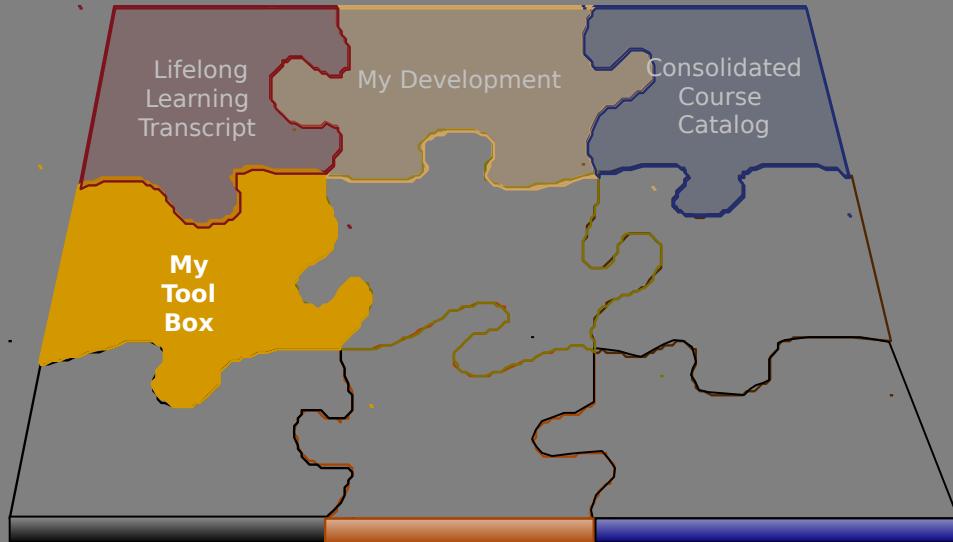

## Soldier's Role

The My Development feature will provide a dynamically updated Professional Development Model (PDM) personalized to the end users, based on their MOS, what they have completed, what's in progress, and what's yet to be achieved. It will link to detailed descriptions of completed activities, pending activates and the overall MOS PDM.

## Soldier's Role

My Tool Box will include data on the Soldier's accession, promotion record, evaluation reports and personalized promotion worksheet.

## Soldier's Role

The Personalized Communications feature will be career related notifications and information from superiors and authorized sources directed specifically to the individual's profile (i.e., MOS, Unit, Skill Level, etc.).

The Personalized Recommendations feature will be automated recommendations based on business rules specific to the soldier's career status.

The General Communications feature will be news, links and information from superiors and authorized sources.

The Alerts feature will be based on threshold settings set by the soldier or other authorized personnel.

## Soldier's Role

The Search feature will use intelligent searches and filters to find career related data, available educational courses, training and other information based upon individual search criteria.

## Soldier's Role

The Leader's Mentor Dashboard will allow the leader to drill down to a Soldier's complete education, training and assignment record.

## Leader's Role

The Group Skill Development Dashboard will provide summary data on units aggregated skill development to support initial unit mission capability assessments.

The Leader's Tool Box will provide the following capabilities:

- Push out education and training recommendations to their target team
- Receive development recommendations/ notifications from their chain of command
- Receive automated recommendations based on individual and unit career development gaps
- Receive key resource links and reference material personalized for a Leader such as MOS reference guides, counseling guides, instructions, etc.

## Staff's Role

The Planner's Dashboard will provide aggregated views to support initial unit mission capability assessments. It will be customizable to monitor various options based on planning needs.

The Custom Reporting feature will allow ad-hoc and custom queries for different planning scenarios.

The Planner's Tool Box will include the following capabilities:

- Push out education and training recommendations to their target team
- Receive development recommendations / notifications from their chain of command
- Receive key resource links and reference material personalized for Planners

# Admin's features in Army Career Tracker

## ACT Support Role(s)

The Content Publisher will be authorized to author, review, approve and publish ACT related content.

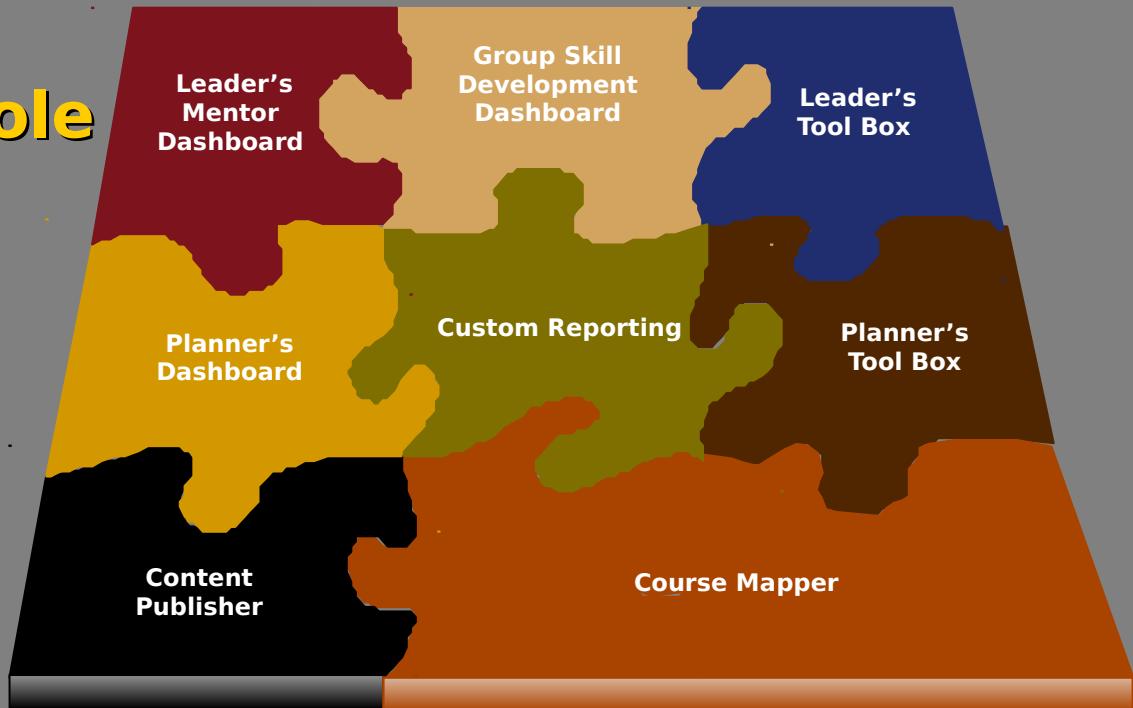

The Course Mapper will be authorized to map education and training courses to the Professional Development Model.
